Journal - Office of Legislative Counsel
Monday - 15 July 1963

25X1 5. [] Discussed briefly with Mr. Paul Barkla, Assistant to Senator William Proxmire, General Counsel's response relating to employment of aliens by the CIA. Mr. Barkla indicated that our response was appreciated.

25X1 6. [] Mr. Houston and [] met with Mr. John Blandford, Counsel, House Committee on Armed Services, concerning H.R. 7216. Hearings are scheduled to begin on Wednesday, 24 July, with a dry run review with the staff on Thursday, 18 July.

25X1 7. [] George Murphy, Joint Committee on Atomic Energy staff, called and asked if it would be possible for two members of the Joint Committee staff to bring to the Agency an amount of classified waste which has been accumulated by the Committee over a period of time and observe its physical destruction in our incinerator. I said I would look into this and be in touch.

Anticipating interest on the part of the Chairman and/or other members of the Joint Committee, Murphy and Conway have been collecting random bits and pieces from the Atomic Energy Commission, ourselves and perhaps others on the various defections and spy cases which have occurred in the last few weeks. They are now asking if the Agency could provide the Committee staff with such information as we may have on these cases as would be of interest to them. (The Committee's interest stems from its interest and involvement in legislation authorizing agreements for cooperation on exchange of atomic energy information. It is recalled that the Committee was most interested in the possible compromise of atomic energy information in the Lansdale case.) Murphy said they would be happy to receive this information through a briefing, a written summary of each case, or through such other form as we might feel appropriate. I said I would be back in touch with him on this matter.
